

MLL Blackpool Cross-Country

Saturday 16th January 2009

DIRECTIONS

The map below shows the three main parking areas for this event: Lawson Ground, Model Village and street parking. Reach the area by leaving the M55 at Junction 4 (signed North Shore) and taking the westbound A583. After about 2 miles turn right on the A587 (signed Zoo). Go straight over at the first traffic lights and bear right at a mini-roundabout on to East Park Drive (A587). At the second set of traffic lights (new) carry straight on for the Model Village car park or turn right on to Lawson Road for Lawson Ground and street parking.

PARKING OPTIONS

1) **Lawson Ground** - Open for entry 10am - 12pm. Exit any time after 12:45. Only use this parking area if you reach the event between these times and are willing to stay until after 12:45pm. No dropping off (do this on Lawson Road outside the grounds). A closed barrier will stop cars outside of these times.

Parking is on one side of a narrow track. Drive to the end of the track, turn round and drive back towards the barrier and park in the next available space close into the

side as directed by marshals. Beware of pedestrians. The general public use this area for strolling and dog-walking. You will be facing the gate and can drive yourself out any time after 12:45pm.

2) Blackpool Model Village - Open 10am to 5pm. Carry on past the traffic lights for a short distance and turn left into the car park. Park carefully and closely to make the maximum use of the space. This year the Model Village is closed, there are no toilets or cafe here and you will not be charged. Take extreme care crossing the very busy A587 to the event area and on leaving.

3) Street Parking - Park on Lawson Road or on the residential streets to the south. There are no parking restrictions on these streets but please be considerate to the residents.
